

YORADEL AMBRAD

WordPress Developer | Automation & Integration Specialist

0966 188 3876 | yoradelambrad@gmail.com | Cebu City, Philippines | yoradel16.github.io/portfolio_updated

PROFESSIONAL SUMMARY

WordPress Developer and Automation Specialist with 2+ years of experience building integrated web systems, CRM-connected platforms, and workflow automations. Strong track record of translating business requirements into working technical solutions — from custom WordPress plugins and Elementor builds to end-to-end GHG setups and AI-powered agents. Comfortable making architectural decisions independently and delivering results in fast-paced, client-driven environments.

TECHNICAL SKILLS

WordPress: Elementor, WooCommerce, WooPayments, Custom Plugins (PHP), SEO, Responsive Design, Figma-to-WordPress

CRM & Integrations: Zoho CRM, GoHighLevel (GHL), Freshservice, API & Webhook Integrations, Token-based Access Systems

Automation: n8n, Power Automate, GHL Workflows, Zapier, Make (Integromat), Airtable

AI & Conversational AI: GHL Conversation AI, GHL Voice AI (Inbound/Outbound), OpenAI API, AI-powered Support Agents

Development: JavaScript, React, Next.js, Python, SQL, PostgreSQL, Power Apps, Power BI

Tools: Notion, SharePoint, Figma, Asana, Supabase

WORK EXPERIENCE

WordPress & Automation Specialist | *Level-9 Virtual (Remote)* Nov 2025 – Present

- Built a full end-to-end WordPress Elementor site for a financial services client — integrated with Zoho CRM for lead capture, WooCommerce + WooPayments for financial calculator purchases, and token-based page access sent via purchase confirmation links.
- Designed and implemented an affiliate program within WordPress: application flow, admin approval/decline dashboard, referral link generation, and purchase tracking — all synced to Zoho CRM.
- Built a custom admin dashboard displaying Zoho data (financial scores, affiliate activity) via custom WordPress plugins using embedded HTML and PHP — all architectural decisions made independently.
- Translated Figma mockups into polished, responsive WordPress Elementor sites (e.g. insurewithcheryl.com).
- Set up GHL Conversation AI chat widgets and Voice AI (inbound/outbound) on client funnels and landing pages.

- Built and maintained GHL automation workflows for form submissions, appointment setting, and internal notifications.
- Built Level-9 OS v1 — an internal platform (Next.js, React, PostgreSQL, OpenAI API) featuring a Role Builder, AI Business Brain, SOP Generator, and Asana-integrated Task Intelligence system.

Automations Specialist | [On Call for You Ltd \(Remote\)](#)

Aug 2025 – Oct 2025

- Built n8n workflows integrating Shopify (GraphQL API) with Twenty CRM for unified order tracking and sentiment analysis.
- Developed AI-powered customer support agents using OpenAI API, resolving up to 80% of inquiries automatically with CRM context escalation for complex cases.
- Engineered weather-alert automations cross-referencing hailstorm data with client property records for proactive lead scoring.
- Automated Instagram content analytics workflows, centralizing data in Airtable with real-time metrics.

Associate Software Engineer | [Smartsourcing / Cebu City](#)

Dec 2024 – Jul 2025

- Built an end-to-end Power Platform solution (Power Automate, Power Apps, SharePoint, Teams, Power BI) for internal HR tracking, reducing manual steps by 70%.
- Designed a QR-based event registration system in Power Apps integrated with SharePoint for real-time company-wide tracking.
- Built a lunch ordering system using Power Apps and Power Automate — orders placed via Teams forms, consolidated in SharePoint, claimed via QR in Power Apps, and visualized in Power BI.
- Deployed Freshservice automations to streamline Order-to-Cash processes.
- Led company website revamp using WordPress and Figma, improving UI/UX and performance.

Associate Software Engineer (Intern) | [Smartsourcing / Cebu City](#) Mar 2024 – Nov 2024

- Automated SharePoint site provisioning with Power Automate — including folder templates, metadata, and site design — reducing client onboarding setup time by 50%.
- Integrated Teams Forms, SharePoint, and Excel for structured data collection and automated document generation.
- Assisted with WordPress tasks and CRM automations using Freshservice alongside core Power Platform work.

EDUCATION

Certificate in Computer Technology, Major in Software Development

February 2025

University of San Carlos – Talamban Campus, Cebu City, Philippines
